

Originally written in 1969 by Carlos Marighella, one of the leaders of the Brazilian guerrilla organization National Liberation Action (ALN), the *Mini-Manual Of The Urban Guerrilla* is probably one of the most famous documents to come out of the guerrilla struggles in Latin America. Widely reprinted and translated into numerous languages it became a guide for many guerrilla movements around the globe. With the massive technological changes that have reshaped the world, many parts of the *Mini-Manual* have become dated and in some cases completely irrelevant. Nonetheless it does serve as a framework for urban guerrilla strategies and tactics when adapted to the current world situation. It also serves as a historical cautionary tale when looking back at the many failed urban guerrilla movements. This edition includes two other documents by Marighella; *Problems And Principles Of Strategy* and *Questions Of Organization* as well as an 1970 interview with liberated Brazilian political prisoners from several different Brazilian guerrilla organizations and finally a chronology of the guerrilla struggle in Brazil from 1964-73.

**"It is better to err acting than
to do nothing for fear of erring.
Without initiative there is
no guerrilla warfare."**
